

audit Pro

Welcome to the Special Audit Pro edition of the newsletter! Audit Pro will be unveiled at BETT and adds a new level of functionality to our audits Taking the headache out of teaching and assessing skills.

We have added lots of features to the data tracking, enabling benchmarking and the creation of custom groups and skill lists. So now you can have groups and skills for any subject area and track a students progress right across the Key Stages. We are really excited about this new product and hope you will find it indispensable.

Come and see us at BETT for a demo or visit www.varndean.net/auditpro for more details.

Finally I would like to take this opportunity to thank you all for your support and wish you a Happy Christmas.

John Burton
