

Well! BETT is over for another year and I must say it was very interesting. I hope those of you that came to see us, got your questions answered and I would like to take this opportunity to thank all of you for your input.

I was really pleased to see the interest and positive reaction Audit Pro generated, but was surprised at the relative lack of interest in DiDA and National. It was however good to hear that our competitors were equally quiet in this area.

I would very much welcome your feedback on the climate for DiDA and National, especially if you have any thoughts on why these areas are slowing down. Is it due to the change in league table structure, or lack of funding for ICT for instance? Please email me your thoughts at:

johnburton@varndean.net

Finally I would like to recommend that all of you come along to one of our online Audit Pro seminars (see below). We are really excited about Audit Pro and I would love to share that excitement with you all!

Regards

John
